Dear Lotus,

thank you for your kind words, it was a very great pleasure meeting you and the honour entirely mine. I hope there will be more chances to meet soon.

Thank you also for your notes on the chapter, I wish you have read it before it having been published. Nobody spotted the quirks you highlighted and it has been reviewed by no less than three native speakers. I am definitely impressed.

As for the invitation, I would like very much, but I fear I am conflicted by another commitment abroad, a bi-yearly meeting of the network of IT law European firms of which I am the president of the board and cannot possibly miss on that very weekend. I cannot rule it out, I need to sort out the agenda and see if there is any combination of flights I could take.

All the best,

Carlo

Hi Lotus,

I am sorry for my delay in response. I have added my answers to your questions in the comments. Please let me know if I have not been clear in my answers or if you have any more questions.

Thank you again for all your hard work on the book and my chapter! It is wonderful to know that the book will be available in Chinese!
